

High Growth Non-Profit Seeks New Board Members

Mission: Global Glimpse works to inspire America's next generation to become responsible global citizens through afterschool workshops and an immersion program in the developing world.

About:

Founded in 2008 in the San Francisco Bay Area Global Glimpse has grown more than 10-fold and served over 3600 students and 360 educators. Global Glimpse currently partners with 65 public high schools in Chicago, New York and the Bay Area to serve 900 youth annually. We are committed to making transformational international travel experiences accessible to young people from all socioeconomic backgrounds. Over 50% of Global Glimpse students come from low-income backgrounds and 30% live below the US poverty line.

Model:

Global Glimpse has developed a scalable fee for service model that covers over 80% of our annual operating budget. We have received strong support from foundation, business, and individual donors and look forward to deepening these relationships to support growth as we optimize our financial model and prepare to scale.

Board Expansion:

Global Glimpse has reached a critical inflection point in our growth trajectory. We have an excellent track record and we are looking for passionate, dedicated individuals with networks, skills, and resources in key areas to join our national board of directors and lead the organization into the next stage of growth and impact.

We are seeking the following skillsets and industry perspectives for our national Board of Directors:

- Fundraising and Network Expansion in the Bay Area, New York & Chicago
- Financial Management
- Public Relations & Marketing
- Airlines, Corporate
- Information Technology

Minimum Annual give/get: \$25,000

All board members commit to make a contribution annually to the organization that is meaningful to them with a minimum annual give/get for new members of \$25,000. Board members are encouraged to leverage their personal and professional networks to support fundraising. Fundraising is a critical piece of our model and allows for consistent improvement and expansion.
